

# SUSTAINABLE SOLUTIONS

FROM THE GROUND UP

April 16<sup>th</sup> - 20<sup>th</sup>, 2018

## EVENTS BACKGROUND AND MISSION

Over the past few decades, globalization has impaired the earth both directly and indirectly. Moreover, in current time our mother earth is facing a lot of environmental issues, such as climate change, over production of wastes, illegal logging, air and water pollution, and so many more. These issues have been affecting the life of beings on this earth. As human beings, we also have become more and more disconnected from nature as well as from each other, shaking the balance of **4 elements of sustainability: Social, Well-being, Economy and Nature.**

**Green School** is a non-profit organization whose mission is to educate and gather a community of learners making our world sustainable.

We believe our kids can come up with solutions. While adults may have more experience, children often offer more genuine solutions. While elders may have the wisdom and guidance, the younger generation retain their passion that allows shaking mountains. Together, let's give space and empower the youth so they can propose sustainable solutions and rebalance the 4 elements of sustainability.

**Sustainable Solutions** is an annual eco-festival conducted by Green School where solution providers from a different background - NGOs, social businesses, startups, teachers, students, community members - will gather, connect, inspire, educate, and equip our community to live more sustainable now.

This year's Sustainable Solutions edition is going to be special as it will be a part of celebrating Green School's 10 Year Anniversary.

The theme will be the **4 Elements of Sustainability: Social, Well-being, Economy and Nature.**

## EVENT'S SCHEDULE

# SUSTAINABLE SOLUTIONS

FROM THE GROUND UP

April 16<sup>th</sup> - 20<sup>th</sup>, 2018

## HOW SCHOOLS CAN PARTICIPATE

1. **Come on one of the mornings, between 8:30 and 12:30** to experience what Green School Students have to share (activities, talks, workshops, etc. Schedule to be announced)

2. **Come present to Green School students** a sustainable project that a group of students, a class or your entire school have been working on. Sustainable projects are not only objects or machines but it can be a way to interact, communicate, balance our life (it can take the form of a workshop, a talk or an activity - for schools situated too far abroad, live stream talks can be scheduled)

3. **Apply for the Sustainable Project Competition** (High School students only) and get the chance to win 1 000\$ (terms and conditions applied)

The deadline for submission will be on **March 31st, 2018**. Top 10 projects will be contacted during the second week of April and will be presenting their project on Sustainable Solutions week (date to be announced). Winners will be announced on **April 20th, 2018**

**TO PARTICIPATE,  
PLEASE FILL OUT THE FORM [HERE](#)**
