Abiansemal, Badung, Bali**

What is Sustainable Solutions?

[Sustainable Solutions](#) is Green School's annual music, arts and environmental festival aiming to connect, inspire and equip our community to live more sustainably NOW!

Green School Bali comes alive for 3 days from **May 2-4, 2019** for vibrant activities that unite students, indigenous community, social and environmental activist, social entrepreneurs, musicians, yogis, and many more.

Check out the complete [Sustainable Solutions schedule](#).

Sustainable Solutions 2019

Sustainable Solution 2019, the 5th edition focuses on **youth connections, activism and Indigenous wisdom.**

Green School is inviting indigenous people from around the world to connect, learn and share solutions to respect and protect their wisdom of the Earth. We are also inviting students from other countries and continents to present, explore and collaborate on projects with common goals.

*Connect,
Respect,
Protect*

About Green School

[Green School Bali](#) is a non-profit pre-K to Grade 12 school. Green School educates for sustainability through community-integrated, entrepreneurial learning in a wall-less, bamboo campus set in the jungle of Bali. Green School's mission is 'a community of learners making *our* world sustainable.' Green School currently has 500 full-time students from 41 countries, including 43 full-time scholars from Bali. Green School also hosts 300 students from the neighbouring villages after school to learn English and sustainability as part of its Community Integration Program, Kul Kul Connection.
